

FOR SALE

Customized camper on Unimog 404 trailer. \$1200 OBO, you collect.

Camper has a plywood top with a plastic exterior, strong enough to stand on, or you can pack bikes, kayaks, etc. The rack is extremely sturdy. Includes heavy rubber mat to keep bikes and gear from damaging top.

Top is raised by a pair of hydraulic cylinders powered by a 12V hydraulic pump. The door can be opened when the top is raised or lowered. The beds fold out into a soft fabric camper for sleeping 3-4 persons comfortably. The interior is about 6'6" when the top is up.

The trailer has an articulated ring hitch. Emergency brake works fine. Stock Unimog 404 spare tire is included (not the XM-47 tractor tire in the picture album), and mounts under the trailer bed. Camper includes a water tank, a toilet not yet installed, and a hand winch for raising things to the roof.
